

# PRITAM PRAKASH MISHRA

Bhubaneswar, Odisha, India | [genoscyber2@gmail.com](mailto:genoscyber2@gmail.com) | [LinkedIn](#) | [GitHub](#)

## PROFILE SUMMARY

- Aspiring Full Stack Developer with a strong interest in MERN stack development and building scalable, user-friendly applications.
- Experienced in solving real-world challenges through structured software architecture and modern web solutions.
- Actively seeking software development internships and entry-level engineering opportunities to leverage core technical competencies.

## EDUCATION

**Parala Maharaja Engineering College**, Berhampur  
Bachelor of Technology in Computer Science & Engineering

**Expected Graduation: 2027**

## TECHNICAL SKILLS

**Languages:** C, C++, Java, JavaScript, SQL, HTML, CSS  
**Technologies:** React.js, Node.js, Express.js, MongoDB, Git, GitHub  
**Fundamentals:** Data Structures & Algorithms, OOP, DBMS, Operating Systems

## PROJECTS

**Smart Waste Collection System** | React.js, Node.js, MongoDB, AWS IoT [GitHub](#)

- Developed a smart waste management platform to optimize garbage collection routes and improve operational efficiency.
- Built a responsive, real-time dashboard to monitor waste levels and track active collections simultaneously.
- Integrated backend web services for secure handling of automated telemetry data and push notifications.
- Focused on solving real-world urban cleanliness challenges through industrial automation and remote monitoring.

**ClickNCart** | React.js, Node.js, Express.js, MongoDB [GitHub](#)

- Built an e-commerce platform with robust product browsing, dynamic cart management, and checkout workflows.
- Designed highly responsive UI components for a seamless user experience across a wide array of mobile and desktop devices.
- Implemented structured, secure backend server logic for product catalogs, queries, and user actions.
- Improved overall system scalability and response efficiency through clean architectural design patterns.
