Professional Summary

Computer Science undergraduate graduating in 2027 with frontend internship experience at THYO India and full-stack project experience. Developed responsive React and TypeScript interfaces, REST API integrations, real-time interview features, and geolocation workflows using Node.js, Spring Boot, and MongoDB.

Technical Skills

Languages: Java, JavaScript, TypeScript, C, Python, HTML, CSS

Frontend: React.js, Next.js, Tailwind CSS, Responsive Web Design

Backend and Database: Node.js, Express.js, Spring Boot, REST APIs, MongoDB, JWT

Tools: Git, GitHub, Postman, Vite, Maven, VS Code, IntelliJ IDEA

CS Fundamentals: Data Structures and Algorithms, OOP, DBMS, Computer Networks

Experience

THYO India Consultancy Services Private Limited Jun 5, 2026 - Jul 5, 2026
Intern -Web Development

- Built React.js and TypeScript dashboards for 2 CodeGear user roles - candidates and interviewers - supporting interview management and coding practice.
- Connected the coding interface to REST APIs for starter code, test cases, and execution output so candidates could run code and review results in one workspace.
- Standardized reusable Tailwind CSS components across dashboards and interview screens, maintaining consistent layouts and interactions across screen sizes.

Projects

CodeGear | Real-Time Interview Platform GitHub
React.js, TypeScript, Java, Spring Boot, MongoDB, WebSocket, WebRTC, Google Gemini

- Enabled live interviews with Monaco collaboration, WebSocket/STOMP chat, WebRTC video, and screen sharing.
- Implemented Java, Python, and C++ execution with starter code, test cases, and submission feedback.
- Integrated Gemini mock interviews with scoring across 4 dimensions and saved feedback reports.

Smart Waste Collection System GitHub
React.js, JavaScript, Node.js, Express.js, MongoDB, Leaflet, OSRM

- Built a MERN waste dashboard with simulated bin monitoring and 5-second task refreshes.
- Automated nearest-pickup selection using Haversine distance, geolocation, OSRM, and Leaflet maps.
- Secured admin access with JWT and bcrypt and automated MongoDB updates for collected bins.

Education

Parala Maharaja Engineering College, Berhampur 2023 - 2027
B.Tech in Computer Science and Engineering

Achievements

- Completed a Web Development Internship at THYO India by contributing to CodeGear.
- Practiced data structures and algorithms in Java on LeetCode & GFG, including arrays, hashing, sorting, binary search, and prefix sums.
